

Dear Sir or Madam,

You may think you know what to do about the telemarketers and our states answer to aggressive people who have no regard for other peoples privacy in their own homes but you do not. Nj do not call must stay. Simple as that. The federal law is the weaker law. Every one should have the right with in their own home not to be harassed by telemarketers. Let nj do not call stay. Do not over turn it because if you do i assure you people in New Jersey will have an awful lot to say about the lax federal standards for telemarketers interrupting and intruding on people's home lives. you have no idea what you are proposing and how fast people in this state will resent telemarketers getting their own way. This time tell the telemarketers no that they will not get their own way in New Jersey. let New jersey's own do not call list alone.

Sincerely,  
Bevin Smullen
